Summary

Fresh graduate from Princess Sumaya University for Technology with a degree in Software Engineering, Seeking an intern position followed by employment in a dynamic company that offers opportunities for continued growth, where I can apply my strong foundation in web and mobile application, and contribute to the success of the organization. Committed to achieving advanced certifications in software development through ongoing study and preparation.

Education

Bachelor of Software Engineering, Princess Sumaya University for Technology, 2020-2024 (Amman, Jordan)

Graduation Project

- Designed PSUTalk, a cross-platform application tailored to meet the specific needs of students.
- Integrated features from various existing platforms to create a seamless user experience.
- Introduced innovative functionalities such as a Chatbot, Task Manger, and a Timeline to share students thoughts.
- Implemented numerous additional features to enrich the overall user experience.
- Focused on optimizing and elevating PSUTalk to become the preferred choice for students seeking a comprehensive and user-friendly academic solution.

Additional Courses

- **Flutter & Dart - The Complete Guide [2024 Edition] (Udemy)**

Master cross-platform app development with Flutter and Dart through hands-on projects and expert instruction.

- **Design Patterns - Albert University (Coursera)**

Acquired in-depth knowledge of software design patterns, enhancing the ability to create robust, maintainable, and scalable software solutions.

- **Communication Skills**

Developed strong verbal and written communication abilities, essential for effective teamwork, stakeholder engagement, and clear project documentation.

Work Experience

- **ASP.NET Full Stack Developer – Echo Technology – Amman, Jordan**
June 2024 -August 2024

Two months internship, where I learned new skills about asp.net web forms, mvc, and postman api. Conducted these skills to complete a given web project from scratch.

- **Project Coordinator – Almedad Soft**
March 2025 – Present
 - Worked on multiple web and mobile projects as a tester, focusing on evaluating frontend functionality from an end-user perspective.
 - Provided detailed feedback, proposed solutions, and documented reports to enhance product quality and user experience.
 - Attended project meetings with the ministry of Labor to finalize and deliver a government-specific digital solution.

Additional Information

- **Languages:** English (Fluent) and Arabic (Native).
- **Technical Skills:** Most Programming Languages (Full Stack Developer).
- **Additional Skills:** problem-solving, time management, multi-tasking, self-motivation, attention to detail, and the ability to work as a team.
